

**External view of scrotum**

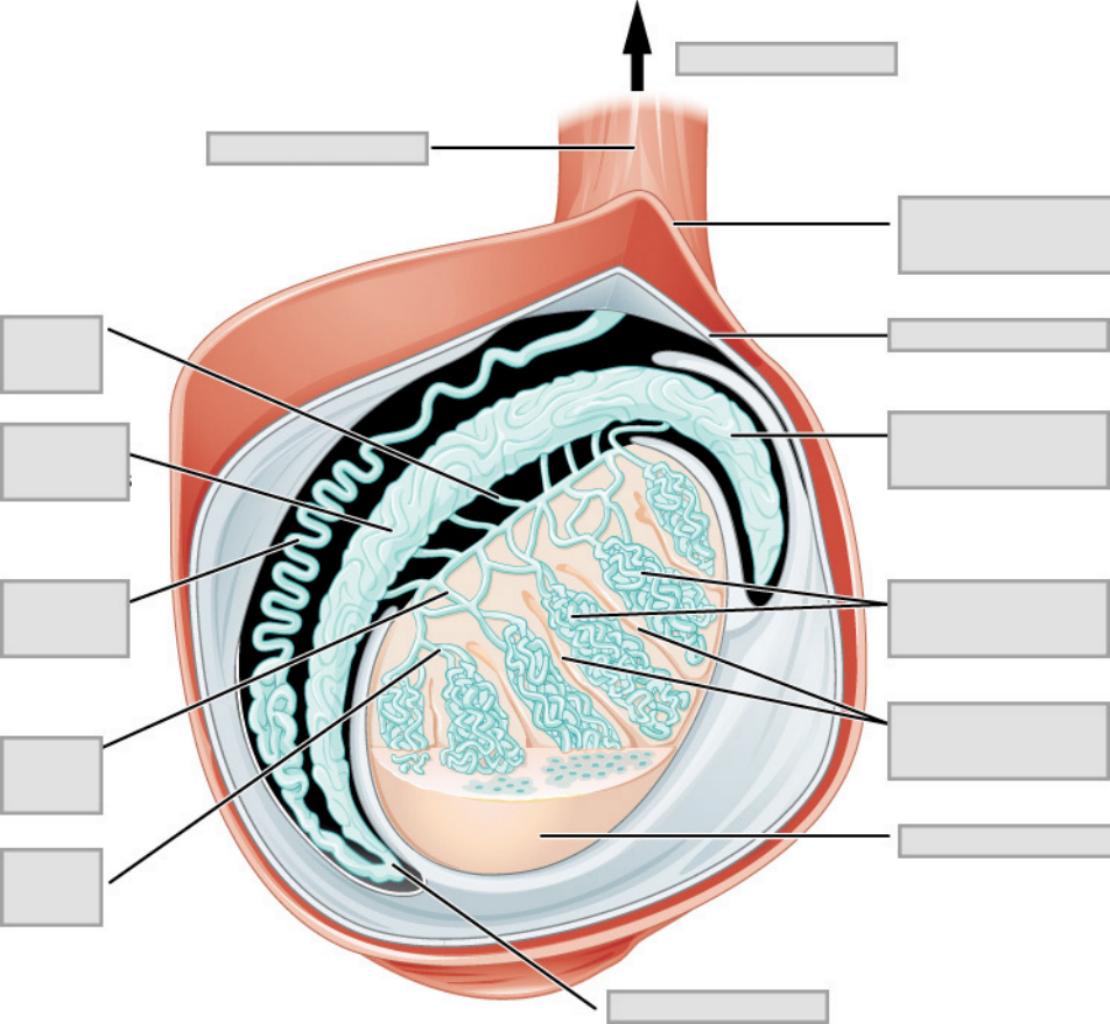

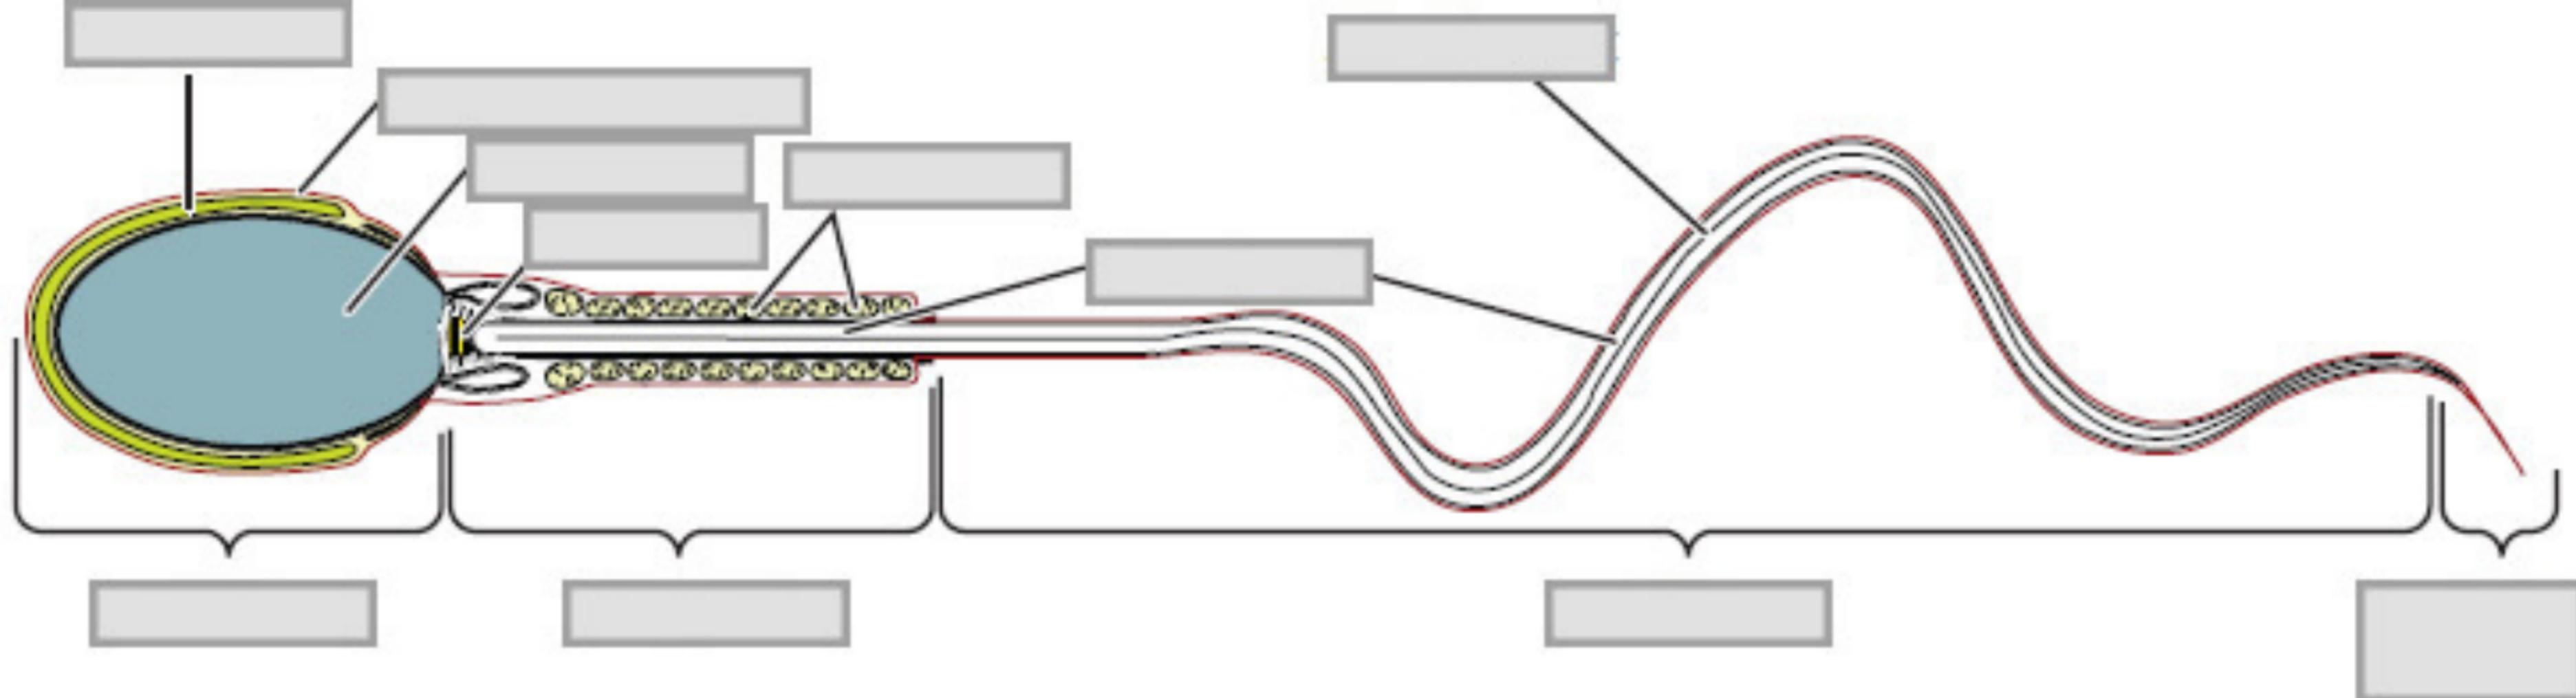

**Muscle layer**

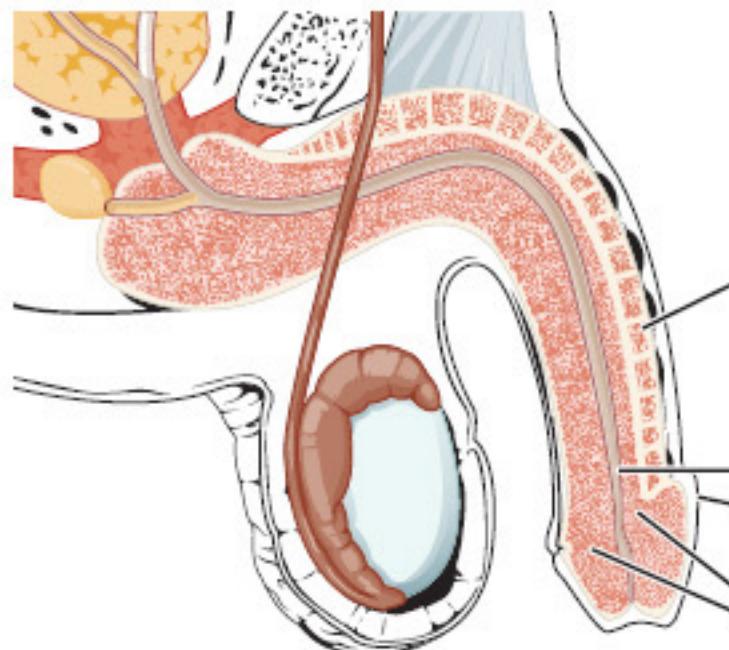

**Deep tissues**

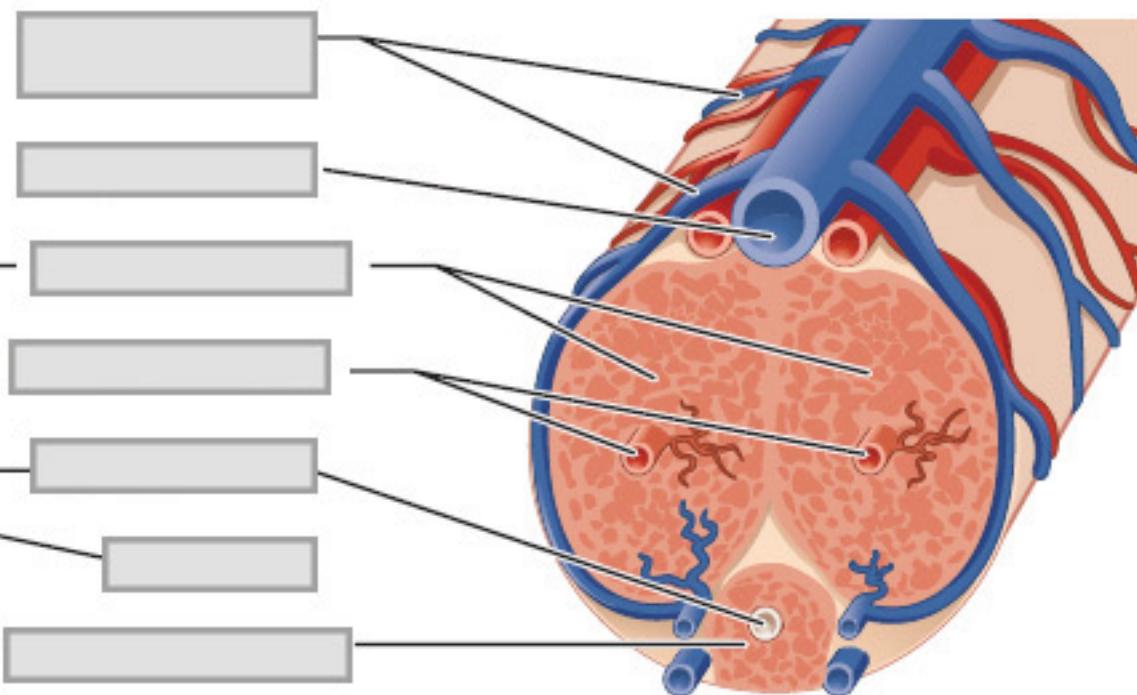

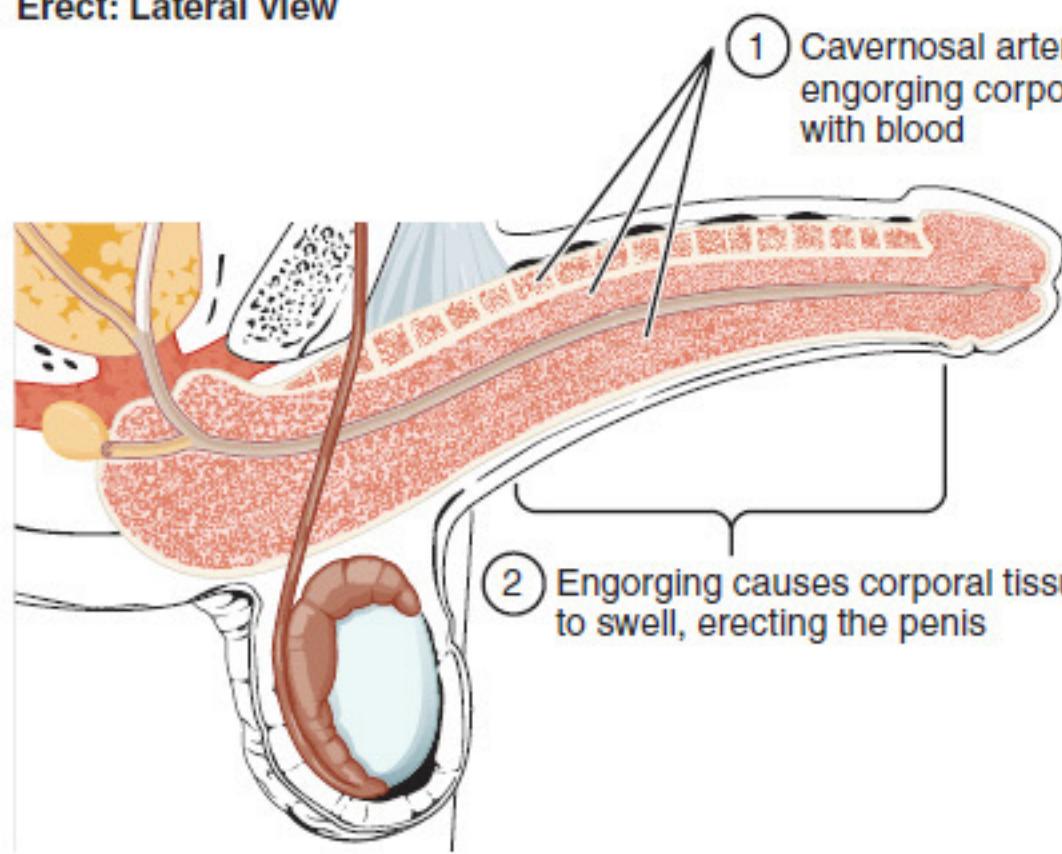

Flaccid: Lateral view

Flaccid: Transverse view

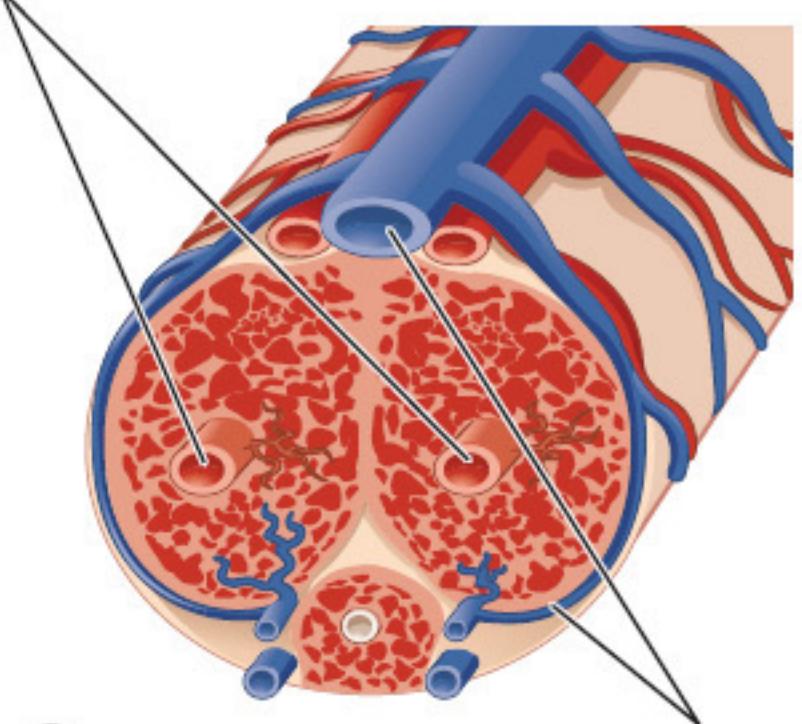

Erect: Lateral view

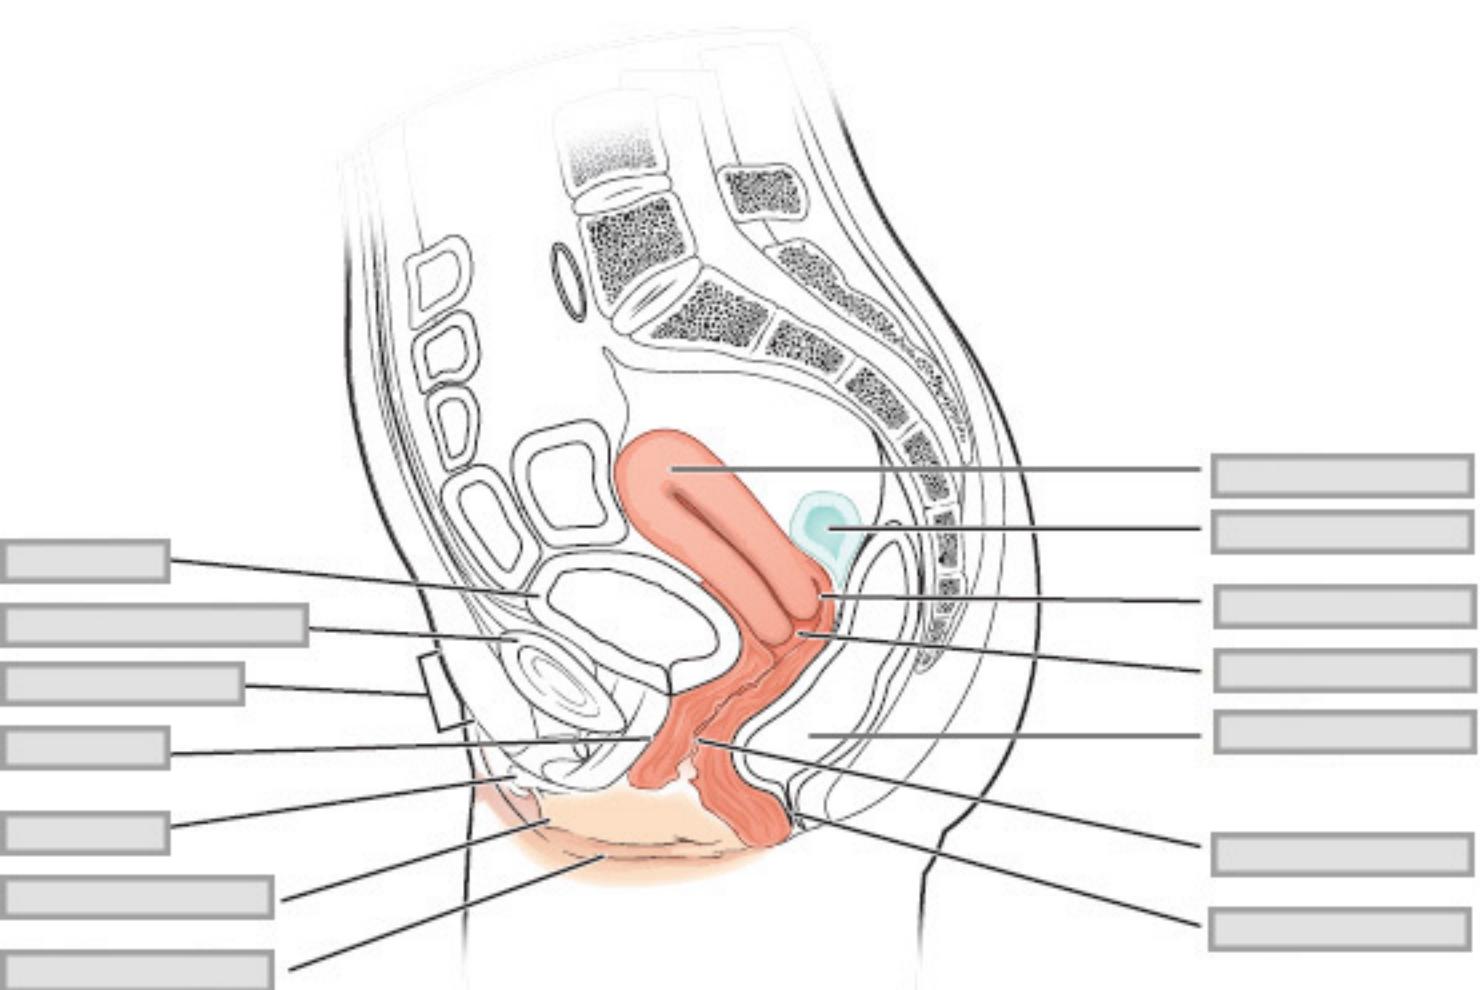

1 Cavernosal arteries dilate, engorging corporal tissue with blood

2 Engorging causes corporal tissue to swell, erecting the penis

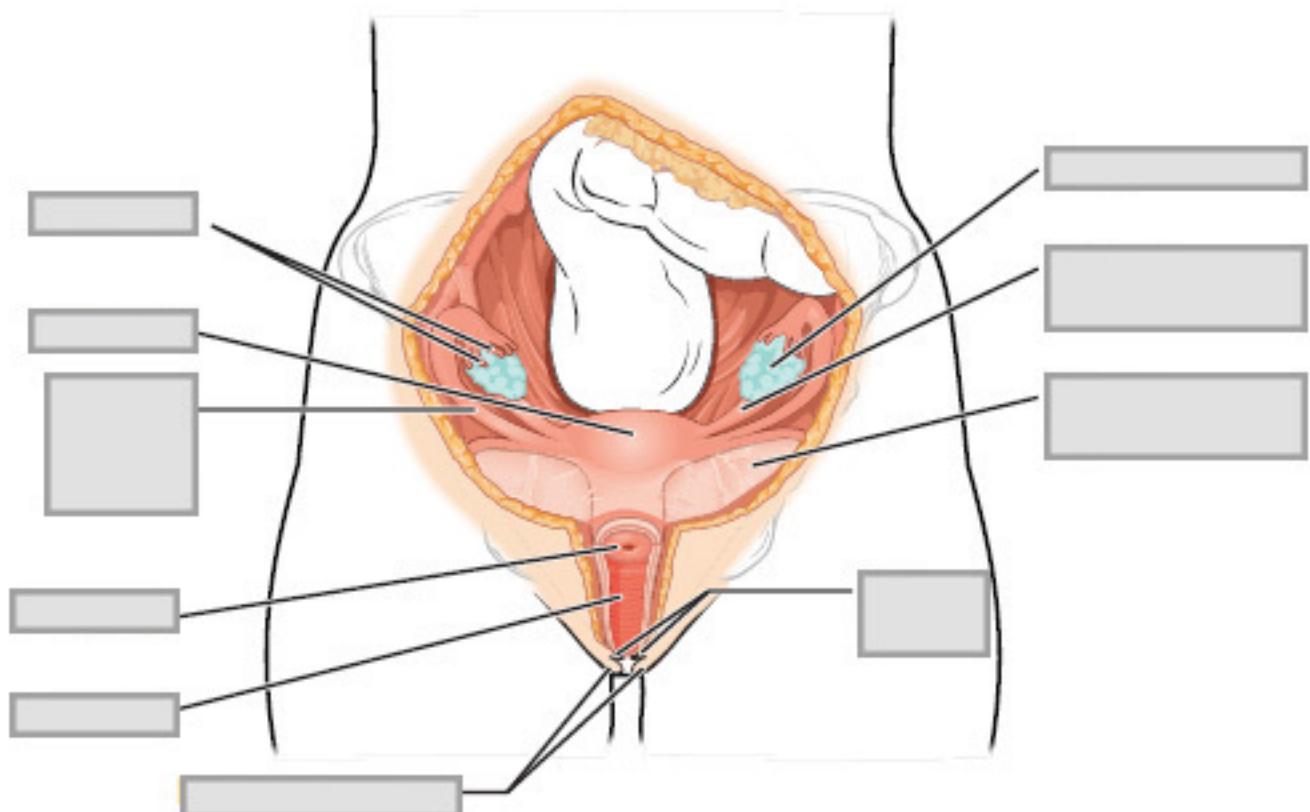

Erect: Transverse view

3 Engorged corporal tissue compresses penile veins and venules, maintaining erection

(a) Human female reproductive system: lateral view

(b) Human female reproductive system: anterior view
